Central Illinois Mediation Day

Benefits

Cost-Effective

ADR Systems' Mediation Day program offers a lower rate for qualified personal injury mediation. Parties know what they will pay going into the mediation. If extra time is needed beyond the two-hour time limit because parties are making significant progress, the neutral's time is offered at a reduced rate. It is an affordable option for parties who may not have considered mediation.

Experienced Neutral

Judge Bernthal knows how to get cases settled in a limited time. He has lived and worked in central Illinois and has a wide breadth of legal experience. Judge Bernthal will use every possible resource to resolve your dispute.

Efficient Process

We are adept at organizing our Mediation Day to ensure that your case is settled quickly, without sacrificing quality services. Our case managers will work with you at every step in the process to achieve efficiency.

Administrative Support

In addition to support from your case manager, ADR Systems provides other administrative support. We will schedule your sessions, make reminder calls and work with both parties if any needs arise. You can focus solely on your client and getting your cases settled.

Case Closure

Get your cases closed before the end of the year. Call ADR Systems at 312.960.2260 or visit our website at adrsystems.com.
